

This paper, written by Metaphysicist and Bestselling Author Theresa M. Kelly, MsD. addresses the psychokinetic ability known as Telekinesis (the Metaphysical Manipulation of the Electromagnetic Force & Electrostatic Fields). Information included in this paper was acquired through years of metaphysical counseling and parapsychological research with individuals possessing this very ability with a wide range of strength and precision. This paper is part XI of the series Quantum Psychics. The series can be purchased individually or as a whole in the book Quantum Psychics: Scientifically Understand, Control and Enhance Your Psychic Ability by Dr. Theresa M. Kelly. (Contents) Modified Definition – Provides an up-to-date and scientific definition of this ability. Areas of Study - Listing associated areas of scientific study suggested to readers interested in pursuing a more scientific approach towards this ability. Associated Enhancement Stones - Stones, metals and crystals are listed that have been proven to enhance this ability. Misconceptions & Myths - Lists several misconceptions regarding this ability due to mainstream media. Associated Minuscule Gifts - Lists psychic abilities associated and usually possessed by those with this ability. Different Forms - Lists different forms of this ability. Personality Traits - Lists personality qualities commonly associated with those who possess this ability. Symptoms & Side Effects - Lists common events and ailments associated with this ability. Exercises & Techniques - Lists and describes in detail several methods for exercising this ability that are scientific and measurable. (Excerpt) If a telekinetic puts their hands together they tend to heat up and can increase to a burning point, but if one puts their fingers together this can cause a popping sound or visible blue electrical current along with the tingling. This popping effect is due to an electrical surge in result of a gift not yet controlled. Since the fingers are such narrow channels, they cannot sustain two large currents at once. When the gift is controllable, this will not happen unless...
