

## Gamescapes 03 Wasteland\*OP

Wastelands are deadly places, and none more so than our battlemat terrain. Blasted rock as far as the eye can see, beautifully recreated as a set of flip-maps. The perfect kill zone for your minis to fight it out, whether its roleplaying or tactical gaming. For added flexibility you get two versions of the terrain, one with the classic 1 square grid on it, the other marked up with a hex grid. Whatever your game, this is the background for your tabletop carnage!
