

The DANCE of Life: A Guide to living your best life every day.

At every stage of life, we actively desire several things, physically and emotionally. Achieving these desires on the other hand, usually seem to be the difficult part and often leaves us, worse for desiring in the first place. Growing older, life circumstances, society, friends and sometimes family often seem to dictate to us who we should become, or the dreams that are expected of us, and vice versa. While our dreams and aspiration may never mean much to others, it should always be the reason we wake up daily. Otherwise, it ceases to be ours. The DANCE of life is written based on true experiences and provides a motivational support especially for the individual who desperately seeks to achieve his/her dreams, while living in a world that pressures us daily to forgo them.
