

Daughter of Mythos

Fifteen-year-old Nora Salvatore thinks wizards, fairies, dragons, and demons are the stuff of myth, but she is wrong. Nora is thrown head first into a life of magic and chaos after learning of a mysterious legend surrounding her birth and the magical powers she is supposed to possess. When an army of demons from a parallel world plans the eradication of mankind, only she can close the portals and keep the demons at bay. Can she learn to harness her new-found powers in time to stop them? Note from the author: Since this book has been appealing to a younger audience than I originally intended it for, the file has had objectionable language removed as of May 22, 2014. Look for book two in December 2014!
