This book pointed out some fabulous ideas that I had not thought of, and a lot of it was stuff I already had laying around unused! My husband’s extra pallets have taken on new life and shelves and a coffee table, and I’m already starting to think about other possible projects. With this book of ideas, I have a hard time deciding where to begin!” – Marge O. (Dothan, USA) “You would think that spicing up the look of your home would be a big, expensive ordeal, but I was surprised at all of the practical little tricks I picked up from reading this that made a big difference in the appearance of my rooms. The ones about using fabric for reviving material was a really useful tip. My dining room chairs look as good as the day we bought them, if not better, thanks to some clever fabric covering. Great book!” – Angela B. (Ontario, CAN) “The painting chapter was my favorite, simply because I hadn’t thought about the semi-gloss finish idea. My friends wanted to know who I hired to paint the dining room... it felt great to claim that achievement and point them to this book!” – Becca E.
