

Drawing from his thirty years' experience in self-development and meditation practice—to include advanced training in mind technology and spiritual philosophy—the author, Raymond Phelan, reveals the most practical, cutting-edge understanding and meditation techniques necessary for bringing about full creative mental capacity. The book quickly establishes how you've arrived at your present state, then reveals the secrets of deconditioning these inherited mind-sets that are holding you back in life. *Transforming Your Life* brings you face-to-face with vital questions that will establish exactly where your present mind state is rooted, how it was formed, and vitally, how this state is either serving or nonserving. You will clearly identify which mind programs are personal choices and which were choiceless through subconscious conditioning. Learn how to? alter or erase undesired subconscious conditioning,? become free of addiction and panic attacks,? attune the brain with theta healing brain speed,? achieve “total belief” as an everyday state, ? transform the mind to the pulse of life—to bliss consciousness,? reuse past happy memories for even greater benefit,? come upon divinely inspired ideas effortlessly,? stay youthful at any age,? attune the brain with the pulse of nature, and? relate to Scripture practically in today's world.
