

How to grow spiritually in a f**ked up world! (Around the campfire) (Volume 1)

Many years ago the author of this book was extremely unhappy, alone and unable to cope! She had no qualifications, no money, no job and no support network; she was in fact, at the very end... Nowadays she is a qualified counsellor, teacher and writer and the conscious creator of her own destiny. How did she do it? This book is a nutshell view of her journey, covering significant points learned along the way. She had used these stopping points to develop her counselling courses and has now integrated the essence of her teaching in a short book. Prepare to be challenged; it will lead you on a journey of self discovery and will give you a new perspective on how important you are in the journey of transformation that is taking place on mother Earth.
