

The Grail Conspiracies: A technothriller of the powers of the human mind

A tip promising the truth of what really happened to his uncle, an OSS agent in World War II, leads Greg Tapscott to France and the main port of the Knights Templar, legendary Guardians of the Holy Grail. As he cuts through layers of deception, disinformation and conspiracies, he learns that his uncle may have uncovered the true Grail, not the Holy Grail in the legends of mystical cups and secret blood-lines, but rather secret knowledge of the most powerful force ever known, a power dormant within the human mind, the secret to tapping the highest human potential. . . . for good or evil. But Greg is not alone in his quest: Twisted Messiah, a Neo-Nazi superstar rock group with a world-wide army of feral kids and potential terrorists, lurk behind, ready to grab and use whatever he turns up
