

Never Too Late: Surviving the Memories

This is a true story about a patriotic young boy who volunteered to serve his country at the age of 17. After enlisting into the U.S. Army he found himself in the middle of a war in Southeast Asia that became very unpopular back home in America. The damage this war brought on to those who survived and the families of those who did not is immeasurable. The Author takes you through the unbearable conditions of the sweltering heat, insect infested jungles of Vietnam, through the death and destruction of the battles and how he survived during and after the war. His goal now is to help others by sharing his experiences and to let who were lucky enough to survive know that they are not alone and that it is Never Too Late to try and heal.
