

Notes and Recollections: With the Historical Setting of the Austrian School of Economics (Liberty Fund Library of the Works of Ludwig Von Mises)

Written between 1940 and 1941, shortly after he arrived in the United States, Notes and Recollections is in effect Mises's pre-1940 intellectual autobiography. This work reveals how Mises developed his theories, wrote his books, lectured, and taught; it describes his life in Vienna and the people with whom he worked. He also discusses his activities as an adviser to Austrian government officials and his frustrations in attempting to keep inflation and communist and Nazi ideas from destroying the Austrian economy. The Historical Setting of the Austrian School of Economics is an essay originally published in English in 1969 that reveals Mises's intellectual development in the context of the origins of the Austrian School.
