

The Pegasus War (The Pegasus War Series Book 1)

The 1st part of a 5 book series begins with The Pegasus War. Eyrian has journeyed down from his remote mountain village with his friend Arctos; the last surviving Pegasus and his loyal ally. They seek to overthrow the dictator Marius who has ruled the land of Vender Maa for hundreds of years through the power of a mysterious crystal he controls. Eyrian gathers an army and seeks the most powerful fighters in the land to help him in his quest to end Marius's reign. He discovers the beautiful Suyen who turns normal objects into powerful explosives; the large and powerful Commander Byron who has a mighty fleet at his command and finally the arrogant and deadly Runo. A sword master who has defected from the enemy and wields the terrible Tenebris; the Black Diamond Sword. Marius has his own weapons; besides the omnipotent Crystal he has as his right hand man Nex Nurez, the strongest fighter in the world who leaves none alive once they encounter him. Powerful Brutes and a strong army also serve Marius. There are other powers in the world as well; the Twin fighters of the North; Gratus and Kentu, the two of them are rumored to equal Nex Nurez in strength together and hold no allegiance to any power but themselves. Nothing is what it seems within this world; the pure white and majestic Arctos can transform into a large and terrible creature when angered or injured; is he the hero or the ultimate evil? Runo makes no secret that he has his own agenda; but what is it and who is he fighting for? Fighting and power are the laws of the land; the strong dominate the weak. Creatures of pure imagination come to life and fantasy reaches a whole new meaning. The pieces are moving; a war has begun, set into motion by Eyrian and there is nothing that can stop the onslaught to come. A new epic tale that will rival all other Fantasy Fiction series ever written with the most detailed action sequences
