

Be blessed by God as you read about Rest and Exercise, Vitamins and Supplements, Diet, Toxicity, Our body being a Temple of the Holy Spirit, Confessions and Symptoms and the difference between those two and then Praying for Others. The Bible says much about Healing and Divine Health. God said it was His will that we be in good health. That is the bottom line, the complete story, and nothing else needs to be added or taken away. He provides healing, deliverance, prosperity and all good things. He doesn't want us to be poor, sick, and oppressed. Most people have no trouble believing that Jesus paid for our sins at Calvary; however, they find it hard to believe that He also provided our healing. Psalm 103:3 states "Who pardons all your iniquities; who heals all your diseases." Why is it that the first part of the verse can readily be accepted, but the last part of the verse is so hard to believe? I would encourage you to do a word study on such words as health, heal, healing, cure, sickness, disease, infirmity, etc. My prayer is that the Holy Spirit will teach you the truth of His Word. Don't just take my word for it. Check it out for yourself and then stand on the truth you find. You cannot go wrong. God is never surprised, never caught off guard or never inadequate in fulfilling His promises. He can do all He said, and He will never violate His Word.
