Stepping Stone I is the first of seven Stepping Stones that help you follow a personal journey of change to Live the New Free. Lets face it; life is filled with challenges, obstacles and phases intertwined with good and bad times. In between the joy and laughter, everyone sooner or later is faced with sorrow or pain, frustration and disappointment, struggles of unfulfilled goals, or anxieties of unwanted circumstances. For many, it may feel like our difficult phases are longer than our happy moments. This is because in the midst of our circumstances, we unknowingly lose pieces of ourselves in the fight to overcome or just get through it. Stepping Stone I is a unique approach to forming a new relationship with your true self. You will hear the voice of your inner teacher guiding you to a deeper awareness of your spiritual self. Release the authentic you hidden within and take the first step toward cultivating the life you want to live.

Insightful and inspiring, Stepping Stone I will help you make small shifts in your life in order to lay a pathway to wholeness. As a result, your life will begin to reflect its real purpose. You will begin to Live the New Free.
