

That Salty Air

Hugh is a fisherman with a special relationship to the sea; a relationship based on respect and reverence. But when Hugh feels that the sea has betrayed him, his whole existence is thrown out of whack. Hell-bent on settling the score, Hugh takes his revenge to the extreme, jeopardizing not only himself, but his family in the process. Ultimately, *That Salty Air* is story about change, and learning the price for trifling with the natural progression of things.
