

The Circle of Six: Emilys Quest (Legends of Eostra Book 1)

Imagine a world where Earth Magic was real and the gods of nature walked the land.

The Twin Worlds of Earth and Annwyn are in crisis: the seasons are out of balance and the worlds are dying. Their only hope is Daimon, an Athenian boy, and a small bird named Emily. Dragged through a portal between the two worlds, Emily almost dies in the snow. Eostra, Mother Spring, saves Emily's life and transforms her into a snow rabbit. Now Emily's quest begins, and with Daimon as her protector, she must decipher the prophecy and gather The Circle of Six, beings of great power called on in times of darkness upon the land. An Air-Elf, a young scholar, a prince and a fire-tiger are the reluctant and final members of the Six, called upon to aid Daimon and Emily. They are now in a race against time to find the lost artefacts of Harmony and fight the forces of darkness under the sway of Gorgos, the Dark Elemental. Do they connect with their earth magic and find their own personal power? Do they come together as one, in time to heal the land and save their peoples? The Circle of Six: Emily's Quest is based on ancient Pagan myths, Emily's quest is a tale of self-belief and high adventure, grief, fear and friendship. At the center of the quest is Emily herself; doubtful, dogged and full of indomitable spirit as she attempts to triumph against the odds to complete the quest and become the symbol of Eostra.
