

## Tower of the Future, Vol. 10

Takeru Matsuyuki's love of fantasy fiction turns into reality when he discovers he is a warrior reborn, locked in an epic battle between good and evil. The series moves toward its dramatic conclusion in this penultimate volume. One of the Seven Stars of the Hokuitsu shows himself in Takeru's classroom! His goal: unleash the memories of the ancient monk Hotsuma, locked deep inside Takeru's head. The confrontation leads Takeru to climb the Tower once more, making another leap through space and time. At his final destination, he confronts the Master of the Seven Stars and learns of this mysterious figure's own tragic story.
